**How We Will Calculate Your Balance:** We use a method called “average daily balance (including new purchases).”

**Important Information About Introductory or Promotional Rates:** If you transfer a balance at the introductory rate, any purchases you make with your card will be charged interest unless you pay the entire balance (including any transferred balances) in full by the payment due date. To avoid paying interest after the introductory rate expires, you must pay your entire balance on your billing statement by the payment due date.

**Loss of Promotional Annual Percentage Rate (APR):** We may end any promotional (including introductory) APR(s) and apply the standard APR for Purchases or Balance Transfers, as Appropriate, if you make a late payment.

**Prime Rate:** Variable APRs are based on the 3.25% Prime Rate.

**Variable APRs for Purchases, Balance Transfers, and Cash Advances:** The Purchase and Balance Transfer APR is calculated using the Prime Rate (“Prime”) plus a margin (percentage we add to Prime) of 10.74%, 12.74%, 16.74%, or 19.74%. The Cash Advance APR is calculated using Prime plus a margin of 21.74%.

**Variable Based on Prime:** The Prime Rate is published in the “Money Rates” section of the online version of *The Wall Street Journal (WSJ)*. We determine the Prime Rate two business days prior to the closing date of your billing cycle. Changes to the Daily Periodic Rate and corresponding APR for Purchases, Balance Transfers and Cash Advances will be applied to your existing Account balance and to subsequent transactions effective the first day of the billing cycle in which we determine the interest rate. Any increase or decrease in the Prime Rate will result in an increase or decrease in your Daily Periodic Rate and the APR, and as a result, the interest charge and the Minimum Payment Due will change and may result in a smaller part of your payment being applied to reduce principal.
